Subject: Re: Urgent Escalation - Continued Police Inaction Enabling Stalking, Hate Crime, coercive , and Public Risk

Ms [REDACTED]

I just wanted to update following on from my letter to you, dated 27.10.2025 and the work I have been completing to assist in the progression and escalation of your cases since my arrival in post as LPU Inspector.

I have also received your most recent email dated 03.11.25 and note the points you have raised.

I have instigated a meeting on 03.11.2025 with Detective Chief Superintendent Pope (Head of Crime), Superintendent Webster (Head of Operations) and representatives from our Professional Standards Department in respect of both the current position, the future direction and departmental ownership of all your cases, given their complexities and also to ensure the correct level of service is provided.

From this meeting, it has been decided that all your cases will be allocated to a Detective from our PPU (Public Protection Unit) headed up by Detective Inspector 14234 Barker as the Senior Investigating Officer (SIO).

This will now require a short handover period from Local officers to our Public Protection Unit to ensure that all crimes are updated with their current position, the highlighting of the outstanding evidential lines of enquiry to ensure the transition is as quick but as effective as possible, to allow the new Officer in the Case (OIC) to be able to take your investigations forward.

D/Insp Barker will be allocating an OIC from his team, who will make contact with you as soon as practicable. D/Insp Barker will also ensure a thorough evidential review is completed of all crimes, given this department is PIP (Professionalising Investigation Programme) Level 2 trained, hence having the appropriate training to deal with serious and complex crimes.

Whilst I absolutely appreciate your previous concerns and frustrations, I hope you can see within the 2 weeks of being in this post, I have really tried to prioritise ensuring your investigations are progressed by the most appropriate department, however this has required time to ensure the appropriate review of your investigations, professional conversations with Heads of Department and decisions then being made based on these actions.

Further to this, I have also requested a further review of the risk around your cases by our Domestic Abuse Review Team (DART). I note you have had further contact from the perpetrator which we need to capture in a new PPN (Public Protection Notification). I suggest this is completed with you via an intermediary by the detective due to be allocated, to ensure all detail is obtained and clearly understood and also any other persons presenting any risk is also captured, to allow DART to correctly and effectively assess the risk.

I have also requested that our Force Crime Registrar, who is the final force arbitrator / decision maker around crimes, reviews your case around the online contact you have been receiving on TikTok to ensure the appropriate crimes are recorded.

I note PSD are still investigating your complaints and this process will continue.

I hope this correspondence gives you the confidence that I have taken your concerns seriously within my short time so far in this role, escalated to the appropriate levels and departments to ensure progression, and continue to strive to ensure the appropriate level of service is delivered to victims.

Yours sincerely

Ben
Insp 14039 Wildman
LPU Inspector
Ascot Drive Police Station
Dunstall Park Road

Derby

Subject: Fwd: Urgent Escalation – Continued Police Inaction Enabling Stalking, Hate Crime, coercive , and Public Risk

Caution: This email originated from outside of the organisation. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I am writing to raise serious concerns about ongoing inaction by **PC Adamson**, which has allowed my stalker to escalate harassment, recruit new perpetrators, and incite hate against me both in person and online. My case has been open since 2023, yet there has been no safeguarding plan, no bail conditions, and no meaningful progress despite repeated reports of escalating risk.

Over the past several months, my abuser [REDACTED] has continued to spread false claims online including that I am a child abuser, that I have been found guilty of child abuse by social services, and that he has a custody order for our daughter, and that I am barred from contact. All of these claims are entirely false, and I have repeatedly warned PC Adamson that failure to intervene would lead to the situation worsening and new individuals becoming involved. As these are the same lies, he and [REDACTED] duty headteacher of [REDACTED] told in 2022 to restrict me from custody of my child in line with a court order. [REDACTED] actively lied to police that social services had instructed this safeguarding.

I warned that Tony Booker would encourage more people, this is precisely what has now happened. A man named **Neil Gillingham** (incognito) has begun stalking and doxxing me online. He has publicly posted details of my whereabouts, including where I would be on Monday 27th October at 10am, based on information he has obtained through online stalking. This represents a serious and escalating threat to my safety.

My **primary abuser** [REDACTED], has also incited teachers to harass me and participate in hate-related conduct. The decision-makers initially classified this matter as a harassment with aggravated **hate crime elements**, but a **sergeant later downgraded it to a "non-crime incident"** without referring it through the **Chief Inspector**, which appears to have been procedurally improper and has directly contributed to ongoing escalation and institutional discrimination.

Derbyshire Constabulary now has **three active linked investigations** connected to [REDACTED] continued harassment including cases involving two of his stepchildren and now this new individual. Yet PC Adamson continues to say she is "waiting for evidence from the court" and that nothing further can be done. This position has now persisted for **nine months**, during which my risk level and exposure have dramatically increased. I have sent medical reports showing that during this time I have experienced significant and permanent injury.

Despite my repeated requests, **no safeguarding meeting has been held**, no conditions have been reviewed, and no risk management plan has been put in place. This is not a proportionate or reasonable response given the documented pattern of stalking, witness intimidation, and hate incitement.

This month, another woman has come forward to say that the **same perpetrator has raped and stalked her**. Despite him now having multiple victims, no safeguarding has been reviewed for myself.

As you are likely aware, I am due to take part in a **public march on 5 November** in Derby with **Rebecca Goodwin** and **Intersectional Uprising**.

will have to address Derbyshire Police's ongoing failures publicly at that event, given the ongoing lack of protection and public interest in the case. Should anything happen to me on or around that date, there will be over 1,500 witnesses aware that my safety concerns were ignored despite clear prior warnings.

I am therefore asking for the following urgent actions:

1. Immediate escalation of my case to a **Senior Investigating Officer** (at Inspector level or above).
2. A **formal review of all linked investigations** involving Tony Booker and associated parties including Deputy head Steven Roe.
3. Implementation of a **safeguarding and risk management plan** without further delay.
4. Internal review of the **decision to downgrade a high-harm hate crime to a non-crime incident** without Chief Inspector oversight.

Please acknowledge receipt of this email and confirm that a **senior officer** will contact me directly. Please find evidence to support this email attached in the form of a link & screenshot of the profile.

Yours sincerely,

[REDACTED]
